

## **P878A-IO PCI Card**

### **Best Solution for IA,VOD,VCR,Video Capture,Security Application**

#### **Hardware Specifications :**

- . Modules name : P878A-IO
- . Capture Chip : Conexant 878A
- . Video Input(s) : BNC x 4
- . TV-Out : No
- . Total Recording Rate : 16~30fps (NTSC), 12~25fps (PAL) (depend on CPU speed and Video-In channel amount )
- . Total Display Rate : 30 fps (NTSC), 25 fps (PAL)
- . Video Resolution : 320 x 240, 640 x 240
- . Compression Format : Wavelet (software compression)
- . Digital I/O : Digital 4 x In & 4 x Out
- . Watch Dog :Yes

#### **Software specifications :**

- . Simultaneous recording, playback, and remote control
- . Circular, Motion detection and Event triggered recording
- . Able to record event in the log file (System login and logout, motion detection and video loss)
- . Allowing to set authority of all users (local monitor, local playback, PTZ control, remote surveillance, and remote playback)
- . Allowing to search images by date, time, camera, event
- . Able to save image as Bitmap(\*.bmp), JPG and . AVI format phone,Mobile phone notification
- . Able to view live video via PSTN, ISDN, LAN, Internet Able to do remote playback and setup
- . Able to view live video and PTZ control by IE browser
- . Able to connect 16 different recording servers (IP) through the remote surveillance software (RX)

. Support DIO function -Support WDT function

**OS Supported :**

. Windows 2000/XP

**Support Languages :**

. Traditional Chinese , Simplify Chinese , English ,French , Italian ,Spanish , Japanese
